Greetings!

As I write this correspondence, we have about 3 inches of snow on the ground at Bramblett Angus. I am sure many of you had a white Christmas as well. It was a treat for children of all ages. I want to thank you for the holiday notes and pictures you sent to our family. Those of us who breed for fall calving are well along with our A.I. and embryo development endeavors. Denver is just around the corner, as well as the State Heifer & Steer Shows.

2010 was a transition year for the registered Angus cattle industry in Georgia. We saw a number of programs disburse. Also, we witnessed a number of other breeders coming on strong with sales throughout the state, and new programs that have a promising beginning. Out of the past, a new period seems to be emerging. There seems to be fewer buyers for five and six digit priced cattle. Yet on the other end of the price spectrum, there are more buyers attempting to upgrade their commercial herds and registered Angus herds. Also, the bull market has been strong. In 2011 and beyond, I believe the registered Angus business is poised for some very good years. We have the cleanest and best beef breed in the world.

With reference to the Georgia Angus Association (GAA), our membership numbers remained strong. The GAA Hall of Fame Awards program was initiated. The Georgia Angus Auxiliary was organized. The Georgia Fall Female Sale had a successful rebirth. Roland Starnes and Dan Beckham did a great job of hosting this event. The GJAA had a great year including winning a seat on the National Junior Angus Board and national Advisor of the Year.

Throughout the year, members of your Board of Directors represented your Association at a number of events and represented you on a number of committees. In 2010, I did not have a single Board member respond with regrets when asked to perform. For this I am indeed grateful to the members of the 2010 Board and I thank you so much for your service. I hasten to add that I feel honored to have worked with all of you during the year that has just come to a close. In addition, more members participated in more activities than in years past. This is great and we hope we are being inclusive and serving your needs.

Time is marching on and change is constant. In this newsletter you are being asked to elect a new Board and I hope you will respond to that call. In addition, you need to make plans right now to attend your annual meeting. That event is just around the corner. It is good business, and good fellowship. I hope we have the most participation we have ever had. It makes all the sense in the world for each and every member to participate in this event.

Best Regards!

Larry Bramblett

The Junior Corner - News from the Georgia Junior Angus Association

Dear Georgia Junior Angus Member:

I hope you all had a wonderful holiday and you are looking forward to a great new year! With the new year comes new news! The schedule for the state shows this coming February has changed and because of that it will be difficult to have a meeting of the Georgia Junior Angus Association, where for the last five years we have elected our officers. Prior to that, we elected our officers at the annual meeting of the GAA. Because the new schedule at the state show is so packed (and many of our members show more than one specie), we didn't feel we would have enough time to seriously devote to the task at hand. Our decision then was do we elect officer at the annual meeting in January or at Southern National in June? Of the directors that responded to Mrs. Gazda's email, the consensus was they would like to see it done at the annual meeting but felt that there would be more juniors in attendance at Southern National. So for this year we will elect our officers at Southern National. Next year we hope to do our elections similar to the way that the GAA does their elections by having a nominating committee and sending out those nominations in the newsletter and asking for additional nominations from the membership. Then ballots will be sent to all members in good standing (dues are current) for them to vote and send the ballot back in to

be counted. (Watch for more information on this process in the future).

Also, it is that time of year again. Your Georgia Junior Angus Association dues are due by February 1 (Postmark date). Remember the Georgia Angus Association pays additional premiums to the Champion and Reserve Angus Heifer and Registered Angus Steer but you MUST be a current member of the Georgia Junior Angus Association having paid your dues by February 1. If you pay your dues at the state show you will not be eligible for the additional premiums so don't wait and pay them now. They are only \$10.00.

I would also like to invite you all to attend the annual meeting and banquet of the GAA to be held in Athens at the Classic Center on January 29. There are more details included in this newsletter.

Let me know if I can do anything to assist you and Happy New Year!

The Bronze and Silver awards are the first two levels of the NJAA Recognition Program that began in 1972. Junior Angus breeders must apply for the awards, then meet point requirements in many areas of participation before receiving the honors. Applicants are evaluated in areas of junior Angus association activities and leadership, participation in showmanship, contests and shows, using performance testing to improve their herd and their progress in producing and merchandising Angus cattle.

The NJAA promotes the involvement of young people in raising Angus cattle, while also providing leadership and self-development opportunities for the nearly 6,000 active members nationwide.
